Program Objectives

Pharmacist:
• Describe Medicare 5 Star Program quality measures used to evaluate quality pharmacy care
• Discuss current BCBSRI programs underway in PCMH and community settings
• Cite evidence-based data describing the risks and benefits of selected dietary supplements for use in migraine and insomnia
• Educate patients about the safe use of dietary supplements for use in migraine and insomnia
• Explain regulatory requirements related to dietary supplements and issues related to quality
• Discuss the role of the PMP as part of a comprehensive patient and community safety strategy to reduce misuse, abuse, diversion, and overdose from Rx opioids
• Compare and contrast ideal PMP characteristics and outcomes with the RI PMP
• Implement principles for safe use of high-risk medications in older adults
• Identify and implement behavioral approaches to managing insomnia
• Identify key factors that determine travelers’ health risk
• Describe the common diseases and other health problems encountered by international travelers
• Evaluate travel health vaccines and medications commonly used in travel health

Technician:
• Identify areas targeted by health plans for improvement within the pharmacy
• List potential safety concerns with dietary supplements used for migraine and insomnia
• Discuss successful examples of RI PMP utilization to pharmacy practice
• Describe principles for safe use of high-risk medications in older adults
• Review behavioral approaches to the treatment of insomnia
• Identify vaccines and medications commonly used in travel health
CONTINUING PHARMACY EDUCATION INFORMATION

The University of Rhode Island, College of Pharmacy, is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education (CPE). Completion of the learning activity and completion of online evaluations and self-assessment tools at the conclusion of the program are required to earn credit. This is a knowledge-based learning activity.

UNIVERSAL ACTIVITY NUMBERS:

**Pharmacists**

060-9999-15-015-L04-P (0.4 CEU)  
Pharmacist-led Interventions to Improve Quality of Care

060-9999-16-015-L03-P (0.1 CEU)  
Pharmacy Law: Protecting Patients & Communities through the RI PMP

**Pharmacy Technicians**

060-9999-15-015-L04-T (0.4 CEU)  
Pharmacist-led Interventions to Improve Quality of Care

060-9999-16-015-L03-T (0.1 CEU)  
Pharmacy Law: Protecting Patients & Communities through the RI PMP

PROGRAM EVALUATION:

Participants must login to the URI Continuing Professional Development (CPD) Management System at https://www.uripharmacycpd.org/ to complete evaluations and report cpe participant data within 30 days following the live activity. Access codes will be given at the conclusion of the learning activity; learners must be present for the full session to receive the online evaluation access code and receive credit. Upon successful completion of the online program evaluation, cpe participant data will be automatically uploaded to the CPE Monitor and posted to the participant’s account within 72 hours. Please verify your cpe participant data has been transmitted to the CPE Monitor successfully. CPE transcripts and individual statements of credit can be printed from your NABP e-profile created at www.mycpemonitor.net or www.nabp.net.

Many partners in healthcare will be attending as exhibitors to share the latest information with you!
